## CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia  
Caused by "Food-Acids"

Dr. MARSHALL, N.B.  
For two years, I suffered from  
Dyspepsia. I was unable to  
eat anything after eating; pain  
along the side and back; and  
headache and sleepless nights

eat right, but as soon as I started  
taking "Fruit-Acids," I began to  
improve, and this medicine  
of mine helped me to  
eat right, relieved me of  
everything else I had.

inadequate. He said that the pensioning  
system was inadequate, and that

# CANADIAN INVENTED MANY

London, July 17.—Daylight trench raids were not the only things invented by Canadians during the war

At Army House a special department under Lieut-Col G.P. Brothers, formerly of the Royal Ordnance Corps, training, has been constituted to deal with claims made by Canadian veterans, and already a long list has been sent down from the War Office. Some of the more interesting devices submitted were never used, but the majority were found to be of practical value. Among the latter were a portable anti-aircraft gun, Lieut C.E. Hoelling, R.E. Three million marks enclosing his improvements are said to have been sent to the War Office, and the same were also adopted by the Army.

Major N. B. Northrup, M.C., O. B.E., invented a Lewis magazine loader and improvements to the Colt machine gun, both of which were actually used. Lieut-Col. W. F.

Green Water, the American socialist and author of the famous book, "The Pestilence of Calamity," was in Westminster Abbey at the funeral service of Edith Cavell. And he needs to the Times those thoughts on the great ceremony.

"In the hour of Edith Cavell's death, the British people were reminded of the many nations, but of the British race, rise to meet the challenge."

"Presently the slugging boys of the streets will be shouting the words of the hymn which she sang."

"These words form the basis of the British people's response to the challenge of the hour."

funeral service in her body approached Westminster Abbey, but before it had quite reached the entrance the waiting people thought it was come and now in silent respect. During that silence, very faintly from above us as we stood, the clock struck noon.

"As I counted the strokes, those I am hearing, those great hymns, 'Abide with me,' are new-stones of both my faith and speech.

"This roof where these have known by heart all my being stirred, in the shroud history it belongs to me.

"It cannot be possible

where my American thought:

"This woman who died for her country, died for more than that. The shots by which she fell killed what was left of the chance we should stay out of the fight. They tore away whatever was left of the veil that hid German savagery from

american boyhood univers-  
erto, to enter here and Hag-  
and learn what it holds, I  
stirred to his depths. It  
speaks to him of himself, of  
ing, his past, the great race  
he belongs.

"May the striking of the  
hear and the roaring have

our eyes.

"After it was merely a question of time when our bodies and our spirits should be equipped to join in defeating Germany.

Carrell's body mark the era of misunderstanding as signaling of the era of understanding between Great Britain and the U. S."

A noble eagle seemed to rise.  
Most rapid in her flight

And while she soared in lofty state

The Kaiser ruled a Kingdom great.

A good story is told of a  
soldier who recently arrived

arrived at Omscow station he  
looked around for some

And mighty empire, too.  
But higher far he tried to rise.  
All nations to subdue.

But Right was Might, and brought  
him down,  
Quite powerless to prolong  
His high ambition when he found

Thus by desire to seize what he  
Could never rightly own,  
He lost control of what he had,

## OF SIX WORDS

New York, July 21.—A will of six words, scribbled hastily on the margin of a daily market report four minutes before the testator died, was filed in the Surrogate Court today.

The words were: "I give and bequeath to my dear wife, Mary, the sum of \$100,000."

William Waters, general agent of the American Fruit Karkage, with the words:

"All I have belongs to Zelman."

He left his \$300,000 estate to Zelman Howell, his housekeeper.

...er visited and just reached his office on 3rd day, when he realized that death was near. He reached for the nearest piece of paper—a market report—scribbled the six words, and obtained the signatures of two business associates as witnesses before he died. —APR 11, 1918.

"This teaching seems to keep one's nerves at high tension all day long.

The children do worry me terribly at times.

"They seem to have all interest in their lessons in the spring, and how I will ever get that Entrance Class through their frame is more than I can guess.

"I could only rest and sleep at night if I could not be so bad. But I cannot. My appetite is gone, and I feel completely discouraged.

"I believe it is all from my nerves. The strain of this school is too much for me. I wonder if Dr. Chase's Nerve Food would do me any good?"

"I know I never thought of it before. For I think that lots of teachers depend on it in the Spring to carry them through and keep up their energy during this trying time.

"If I could only get the teachers to give it to their nervous, irritable children, I am sure that would help some, too.

"It is worth while trying, anyway, when one gets into such a nervous and worrying condition as I am, and I do not see why I should not help me as well as others.

## VICTORIA COUNTY CAN PRODUCE CLOVER SEED, SAYS PROF. RAYNOR OF OTTAWA

There is no doubt that the good old county of Victoria could become a factor in red clover seed production. In fact it is not an experiment for seed has been produced in the few years of the climatic cycle. This year there are a number of fine clover seedlings in the county. The chance for further has started and read the record. Some have brought about conditions for the seed growth on the farms rapidly. Every farmer in the county who will have the second growth clover seed will get it all this year for seed if he for no other reason than that they may

have a supply of seed to sow next year.

The prospects are for a great dearth of seed and unprecedented demand. This is shown from many of quotations in the West World. The seed is in demand for the month for December deliveries. All seed needs are expected to advance in price this season.

It is expected that clover will be available for the seed of the county even wherever there will be enough seed work with seed and where there are no seed yet available.

## VACANT HOUSE ON YORK ST. DESTROYED BY FIRE—HOUSE APPARENTLY SET ON FIRE

A rough oak house on York-st., opposite Armstrong's Dry house, and owned by Mr. Peter Conroy, was gutted by fire early on Monday morning. The alarm was rung at 2:20 a.m., the firemen being on the job a few minutes later. By this time the house was in flames, and the firemen, who were called, and the brigade continuing their efforts to extinguish the

house and preventing the fire spreading to surrounding property. At the house had not been occupied for several months. Chas. Ross, who lives in the house, after taking a look around on found evidence that the house had been set on fire, the house being left in the coal oil rack, still partly filled, behind him.

An investigation is being made.

## GREAT BRITAIN MADE NO OVERTURES FOR PEACE IN AUGUST, 1917—REPORT DENIED

Paris, July 23.—A statement of the "truth" was the characterization applied today by Alexander Ribi, the second secretary of the British Legation in Berlin, to the German Foreign Minister, declaring that Great Britain and France made no overtures for peace in 1917. The statement was made in 1917 when Germany rejected M. Ribot, who was French President and Foreign Minister, of the time in question, and this declaration was made to the British Legation in the city of Paris. The former secretary of the Legation is as follows:

Renowned from Paris: "The British Legation in August, 1917, suggested proposals to Germany for peace overtures, but Germany refused to accept them. The British Legation in August, 1917, suggested proposals to Germany for peace overtures, but Germany refused to accept them. The British Legation in August, 1917, suggested proposals to Germany for peace overtures, but Germany refused to accept them.

without acknowledgment was made in the Paris, but nothing more. The British Legation in the Balkans, to the best of my knowledge, did not propose that the British Legation did not contain sufficient proposals for Belgium.

Cardinal Gasquet, the papal secretary of state, M. Ribot, continued, stated again that in 1917, he had no explanation for the suggestion to start a revolution. M. Ribot declared, but the British Government refused to accept them.

"I simply said in the British Government, 'I am not sure that it is possible to be involved in a British revolution like that,' and that was the end of the matter."

## CABINET RECONSTRUCTION TO BE ANNOUNCED AT ONCE

Ottawa, July 23.—Mr. Thomas White is expected here tomorrow to announce the reconstruction of his cabinet as minister of finance will follow later immediately. At the same time the prime minister will announce the cabinet reconstruction which has been under way for some time.

It is pretty generally understood that the reconstruction will not be extensive, nor is it likely to involve many new appointments. The probabilities are that Mr. Arthur Meighen will be transferred from the department of the interior to the department of finance, and that the departments of interior and immigration will be consolidated under Mr. Hon. James A. Macdonald.

A new idea will have to be brought in for minister of agriculture, but the general probabilities are that the appointment will go to Dr. S. J. Smith, Minister of Agriculture, B.C.
